

Seminar Location

To get to the Seminar, take the I-55 Sangamon Avenue exit (Exit A-B) and go west on Sangamon to the main gate entrance of the state fairgrounds, which is on the north side of Sangamon Avenue. The event will be held in the first building (Illinois Building), on your left as you enter the fairgrounds. Look for the Abe Lincoln statue, which is adjacent to the Illinois Building. Ample parking is available just past the Illinois Building on the left.

1st Class Air will be providing ground transportation for those who will be flying in to SPI for this seminar.

A Message from the SPI-FSDO Manager:

Safety is our passion, **Integrity** is our character, **Quality** is our trademark, and **People** are our strength. These values are from Nick Sabatini, Associate Administrator for Aviation Safety, AVS-1. What words could better describe our aviation community as a whole? These characteristics are routinely demonstrated everyday by the people within the Springfield FSDO district and I am honored to be a part of this dynamic community.

Aviation is a rapidly changing environment and the growth in technology is incredible. As aviation technicians, it is imperative that we continue with recurrent training. We all benefit from the sharing of our knowledge and experience since our collective efforts have proven positive in achieving safety in aviation. The I.A. Renewal Seminar is one method of coming together and actively participating for the benefit of the group. Our dynamic volunteer speakers from the Industry and the FAA are dedicated to making this 8 -hour seminar one of the most informative yet. I hope to see you there

If you have any questions contact:

Kerry J. Gambrel
Safety Program Manager - SPI-FSDO
217/744-1910

Don Cramer/Steve Young
IDOT - Division of Aeronautics
217-785-8516

Sincerely,

Dixie J. Norton,
Manager SPI-FSDO

Who should Attend?

- Aircraft mechanics, pilots, aircraft home builders and anyone interested in aviation.
- There is no registration fee for this seminar. It is free.
- **FREE LUNCH PROVIDED!!!!**

Maintenance Technician Award Program

This training seminar makes you eligible to participate in the Aviation Maintenance Technician Award Program. Your attendance will be registered at this seminar and applications will be available for your Maintenance Technician Award.

The Program's purpose is to serve as an incentive for individual technicians to actively participate in recurrent and initial training programs on their own initiative or training programs subsidized by their employer.

ATTENTION

Holders of Inspection Authorizations

You will be able to renew your inspection authorization by attending this seminar. A certificate of attendance will be given to you at this seminar.

IA renewals will be done on site for IA's that fall under the responsibility of the SPI FSDO.

Renewals can also be accomplished by activity reports as required by regulation.

Safety Program Airmen Notification System

SPANS is an online event notification system. Many of you now have taken advantage of FAA sponsored events and seminars to increase your skills as airmen. The FAA has recently launched the SPANS system to provide better seminar and event information notification in a timely manner and easy access for Airmen. The SPANS system is taking the place of the current paper based snail mail system.

Anyone can search the SPANS system and even register for events online. Just click on event search in the navigation and find events in your area.

Registration for faasafety.gov is free! After registration and receipt of your temporary password, you'll be able to customize your event notification preferences, as well as be automatically notified of new events in your area.

**For more information about
SPANS go to:**
